Qcon Operating Principles “Motto” and the 4 pillars

Qcon cares!

Qcon Four Pillars!

Quality:

*We will get it right, first time
& every time.*

Communications:

Our way is two ways. ↔

Ownership:

It is our site; we are responsible for it.

Non-complacency: *We are consciously competent people.
No shortcuts; no over-confidence.*

Credibility:

Say what you do . . . do what you say . . . walk the talk.

Action:

Commit yourself and others to achieve desired results.

Resolve:

Never give up on the pursuit of HSSE Excellence.

Engagement:

Listen, consult, involve and communicate.

Safety:

We want to, we choose to, we will be safe.

QCON - QHSE Management System

Qcon 6 Life-saving Rules

DO

Work with a valid
work permit when
required

No confined space
certificate no entry
into confined space

Verify isolation
before work begins

Protect yourself
against a fall when
working at height

DON'T

working or driving

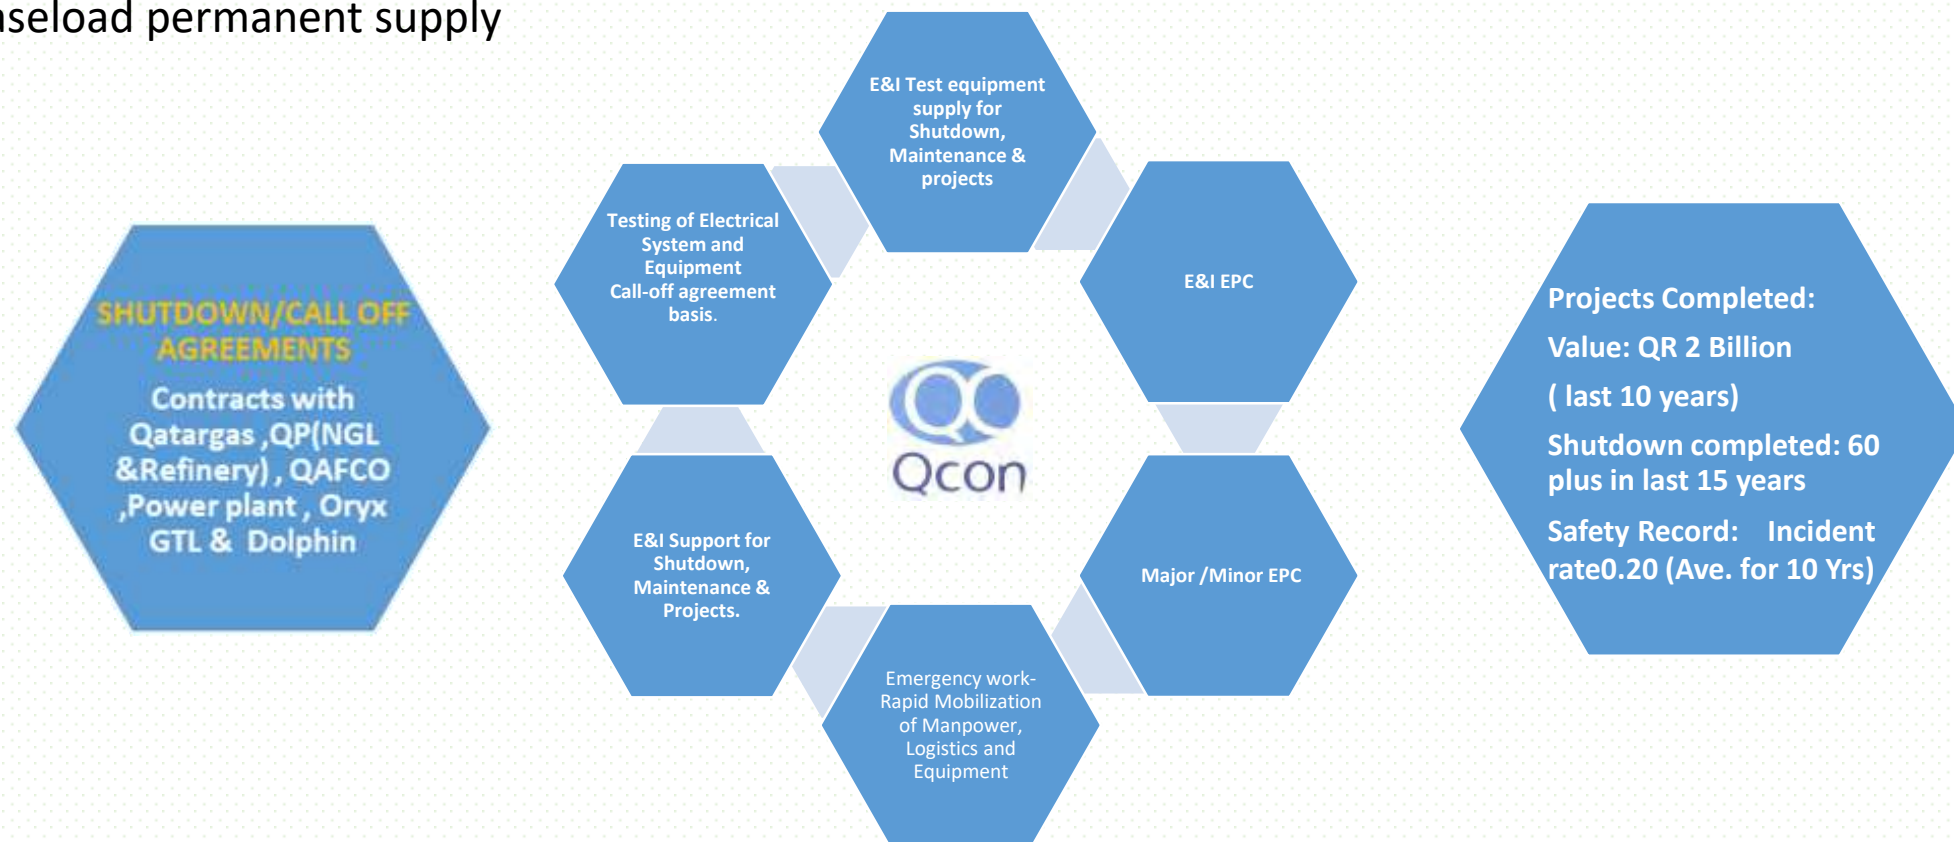

Do not walk under a
suspended load

QCON - Certifications

E&I Services for Onshore & Offshore

E&I Department certified as Grade “1” Kahramaa License and service provider in the field of Electrical & Instrumentation for testing & Commissioning, Engineering, Erection Supervision and Maintenance of Power Plants, Oil & Gas and Petrochemical Plants. We have earned good reputé in this industry due to our highly reliable as well as effectual services. We have around 45% (180 personnel) of our team supplied as skilled maintenance Technicians for around 11 Oil & Gas Operating Companies through 16 contract as baseload permanent supply

Qcon E&I Project(EPIC)

Maintenance

SUBSTATIONS

- ✓ Construction of Substation Projects (11 KV up to 400KV).
- ✓ EHV sub-station equipment installation indoor and outdoor yards up to 400 kV GIS
- ✓ HV (11 kV, 6.6 kV, 3.3 kV) and LV Switchgear installations.

CABLES HV/LV/INSTRUMENTS

- ✓ Cable Rack, Cable Tray installations.
- ✓ Cabling on HV/LV Power & Control cables including joints and terminations Different Sizes

UPSA &VSDS/VFDS

- ✓ Erection of UPS, DG sets, VSDS etc.
- ✓ Control Panel Installation, wiring & termination.

DBS, LIGHTING,HVAC,TELECOM &CP

- ✓ Control Panel Installation, wiring & termination.
- ✓ Building electrification – lighting, small power, HVAC controls, telecom, fire detection, earthing installations.
- ✓ Impressed current & Sacrificial types Cathodic Protection installations.

HV/LV SWITCHGEARS & CABLES

- ✓ HV / MV/LV switchgear, Power and Control Cables, Relay and Control panels
- ✓ LV Switchgear and distribution boards.
- ✓ Cable Fault Identification, splicing and termination works.

UPS/FIRE PROTECTION/LIGHTING

- ✓ AC & DC UPS and batteries.
- ✓ Fire alarm & Fire protection systems.
- ✓ Indoor /Outdoor Lighting & small power sockets/switches.

TRANSFORMERS

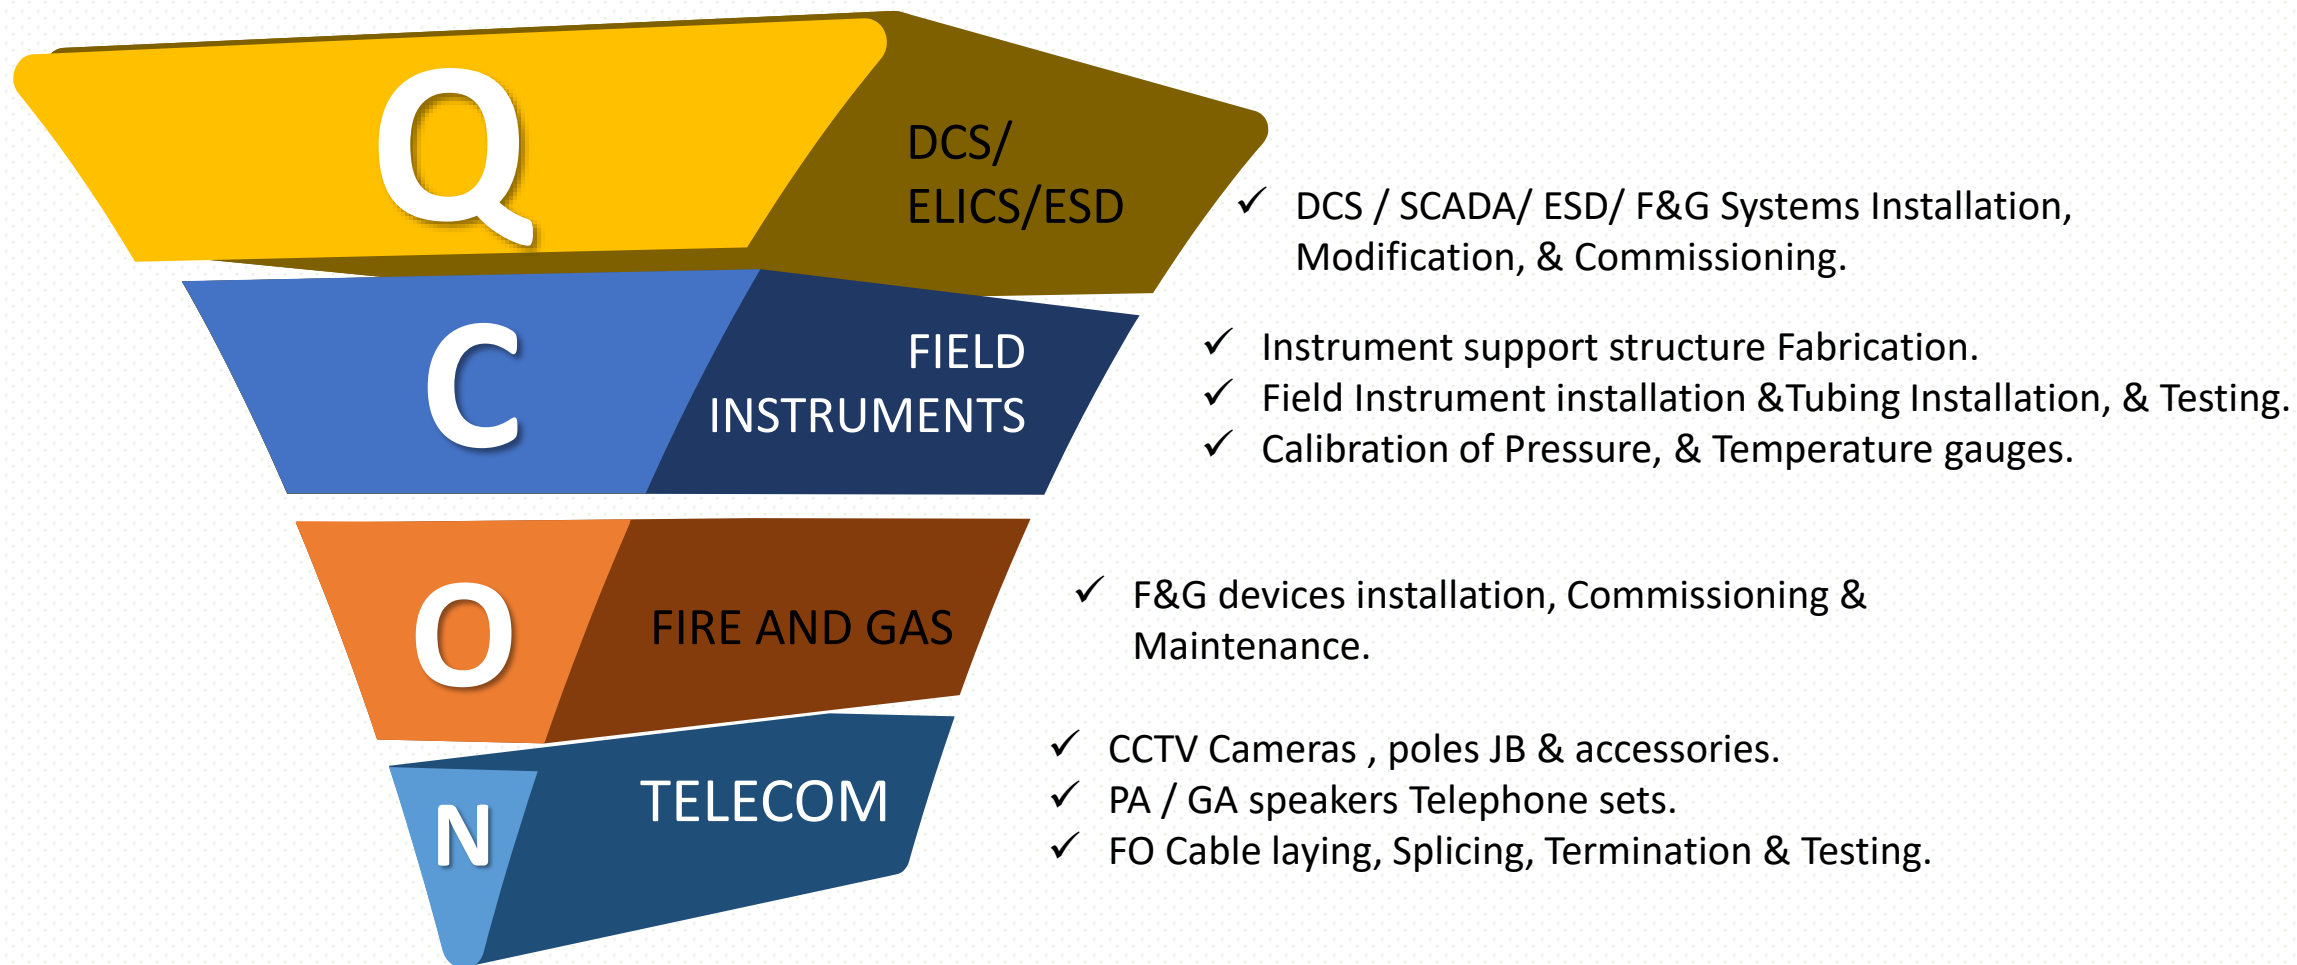

- ✓ Power Transformer/Distribution transformer. Transformers Oil Filtration jobs.

ELECTRICAL TESTING

- ✓ Commissioning Tests.
- ✓ Transformer Tests.
- ✓ Diagnostic Test for switchgears, Relays, Rotating machines, etc.
- ✓ Motors Testing.

QCON – Instrumentation and Telecom

Training & Certification

- ❖ KAHRAMAA-GRADE-1-ELECT-LICENSE
- ❖ Holder of Kahramaa Cable Jointer License.
- ❖ Holder of Kahramaa approved supervisor License.
- ❖ Certified MV cable jointers from Raychem TE connectivity.
- ❖ UPDA certified A& B grade Engineers.
- ❖ Registered Contractors with all Oil & Gas / Industrial establishments in Qatar.

Subject: Sea Water Intake Transformer Replacement TR-821-B

With reference to the above subject, this is to inform you that the project has been completed with great success and more importantly, without any accidents or injuries. Your personnel performed their duties very well and their contribution to the project's success has been appreciated by everyone in Qatar Gas. Your workers and supervisors all gave great effort in carrying out this complex task, under very demanding conditions.

I would like to take this opportunity to extend Qatar Gas' sincere thanks and appreciation to you and your personnel, for your hard work and dedication demonstrated in making this project a very successful one. Without your staff's efforts and commitment, we would not have reached such great results.

Congratulations once again, and I look forward to our continued teamwork and dedication in all our future endeavors.

Regards,

Ahmed Al-Thani

Attn: Robert M. Walker, General Manager

Dear Sir,

Sub: Appreciation for Job Well Done

We take this opportunity to thank QCON Management and Shutdown team for all their efforts in supporting QG in achieving its objectives in a safe and effective manner.

Special thanks to Mr. T. H. Alasmudhah who was nominated as Shutdown Project Manager for last five years and carried out five shutdowns with Gasops and managed MECO/QCON Shutdown Team during this tenure.

His skills and leadership as Project Manager has permitted a very smooth coordination and team work during the shutdown activities. With his thoroughness of work and continuous improvement during each shutdown has reached a very high level of safety.

During mobilization/demobilization of site equipment and other resources, he has indicated his good capabilities to get the things done in timely manner and can be considered as a thorough professional in his work.

Best Regards,

Subject: Appreciation Letter to QCON

We are very pleased to record that QCON performance in completing Dolphin' production Train-2 turn-around and other critical tasks such as slug-catcher cleaning and renewing the piping in unit 103-2, in year 2010, have been very successful.

QCON progressed, timely, in building up its teams at different work-fronts, and came together as an efficient outfit. QCON also succeeded in reposing confidence in DOLPHIN management by performing well, consistently, and achieving successfully the schedules for shutdown and other works whilst keeping safety record intact.

QCON's management support to its site team and sub-contracts management was significant and played a vital role in overall success. QCON's site team partnership with Dolphin shutdown team was transparent and objective which helped bring the end results of mutual satisfaction.

DOLPHIN wishes OCON success in every endeavor they undertake in future and would be, particularly, pleased to see them back for any of its future shutdown and construction works.

Sincerely,

Hassan Al Emadi
