1. Qcon Civil Department Scope

Welcome to Qcon,

Qatar Engineering & Construction Company WLL [Qcon] is a local Qatari Company.

The Company was originally formed as Mideast Constructors [MECON] in 1974 and incorporates as limited company in 1976, a wholly-owned subsidiary of Mannai signed a landmark agreement whereby all personnel, systems, assets and continuing activities of MECON were acquired by a new joint venture shareholding company, Qatar Engineering & Construction Company WLL [Qcon].

Qcon's capabilities include on and offshore large project and construction management, fabrication, construction and installation of structures, furnaces, process and other piping; fabrication and erection of cryogenic and ambient storage tanks; fabrication and installation of modular skids; fabrication, load-out and offshore hook-up of jackets and topsides, civil, structural, mechanical, electrical and instrumentation works in connection with EPIC and general construction projects; preventive and shutdown plant maintenance and refurbishment works, plant revamping and debottlenecking works; planned maintenance management and contracting; detailed engineering services.

We take the opportunity to emphasize a number of characteristics that set up us apart from most other local and regional contractors:

ISO CERTIFIED COMPANY [NEW CERTIFICATE]

1. ISO 9001:2008 **Quality Management System**
2. ISO 14001:2004 **Environmental Management System**
3. OHSAS 18001:2007 **Occupational Health and Safety Management System**

2. Mission and Vision

Department Mission:

Qcon's mission is to maintain its leading position as the client preferred National contractor, capable of meeting the diversified needs of its clients in the Construction and Maintenance services, while maintaining high standards in Health, Safety, Environment and Quality towards our employees, customers and community.

Department Vision:

Qcon strives for excellence in revolutionizing the construction industry by adopting international best-in class leading practices aiming for high quality project execution that is consistently in conformance with the agreed requirements.
